try! Swift Tokyo 2017 후기

@wanbok

오늘 할 얘기

- ~~내 얘기~~
 - 행사 얘기
 - 몇가지 발표 간략히 소개
 - 행사를 통해 느낀점
 - 광고
- * 발표관련 상세한 내용은 조만간 있을 Swift Korea Meetup에서 다룰지도(?) 모릅니다.

try! Swift

try! Swift Tokyo

- 매년 3월 2일 ~ 4일
- 2일, 3일 발표 22개의 세션, 11개의 라이트닝토크
- 4일 해커톤
- 사전/사후 행사 가득

<https://www.tryswift.co/tokyo/en>

왜 감?

검토

- 해외 처음 감
- 비행기 놓쳐서 왕복 55만원으로 감
- booking.com 에서 캡슐호텔 쌌거 고름

시작

시작

발표들

- 머신 러닝
- 안드로이드 - 자료
- Object detection
- Server-Side 1 2
- Client-Side Deep Learning
- Game development on AppleWatch

머신러닝 - Python on the server, Swift in the hand

Build models with Python

- Adapt a standard model: plain old regression, existing pre-trained neural network, or one of many off-the-shelf models
- Use TensorFlow, in Python (probably)
- Train with your data

Deployment on iOS in various ways

- Talk to TensorFlow server over the network
- Embed TensorFlow library in the app
- Port to **Accelerate**
- Port to **MetalPerformanceShaders**

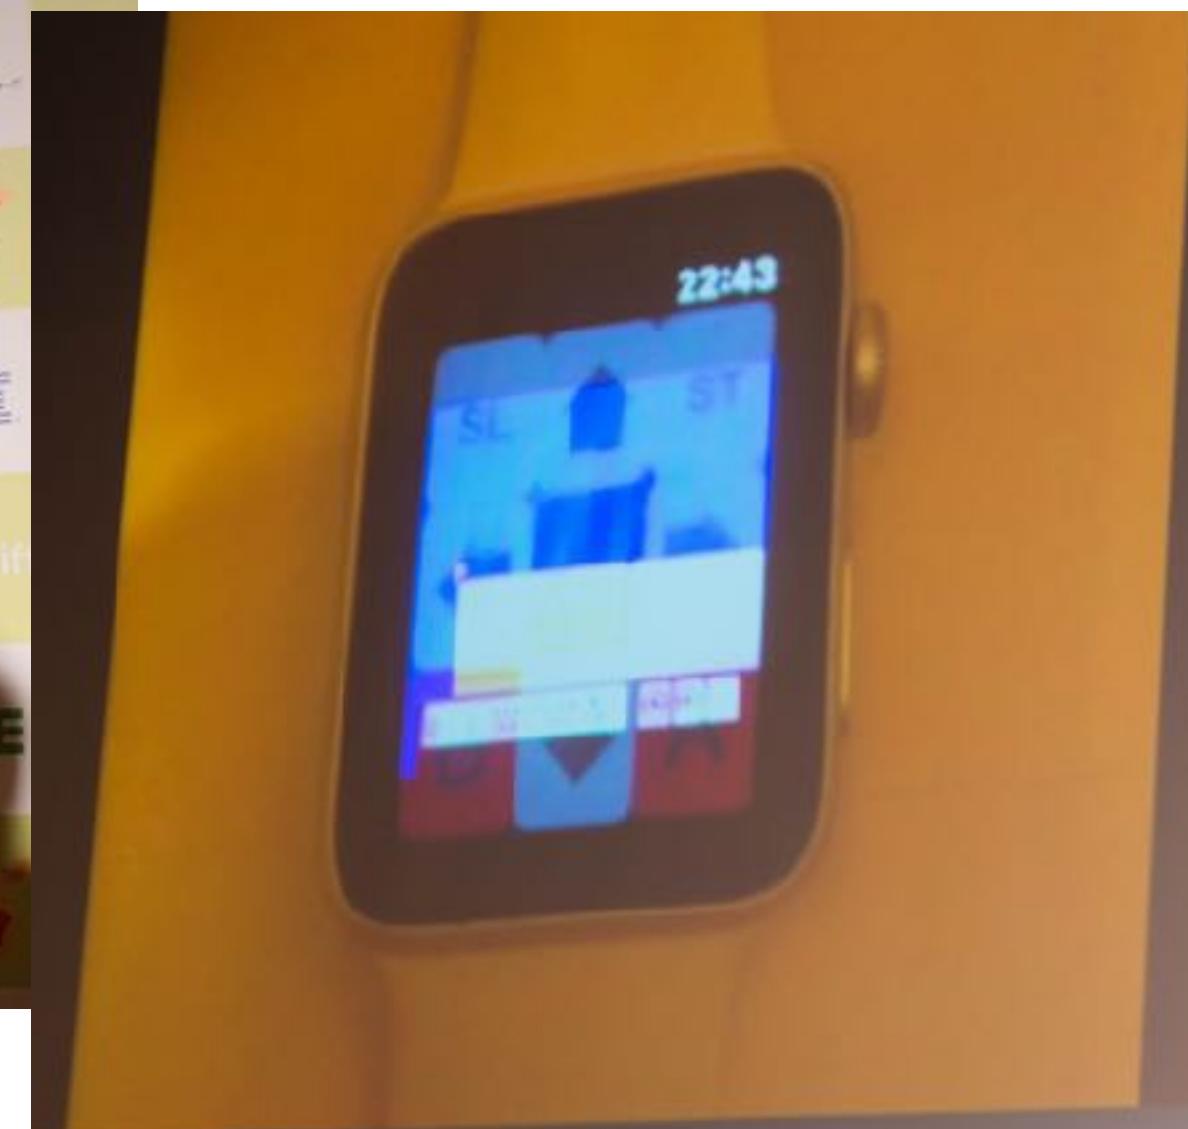

Swift On Android

Client-Side Deep Learning

Gamedevelopment on AppleWatch

발표들 - For Swift Developer

- Swift's Pointy Bits: Unsafe Swift & Pointer Types
- Everything You Ever Wanted To Know About Sequence and Collection
- Color Me Surprised

Hackathon(Day 3)

- 오전 9시 ~ 오후 8시

Hackathon(Day 3)

- 오전 9시 ~ 오후 8시
- <https://tryswift.devpost.com/>

The screenshot shows the DevPost website for the "try! Swift Tokyo 2017" hackathon. At the top, there's a navigation bar with links for Home, Participants, Rules, Submissions, Updates, and Discussions. The main title "Pushing the Limits of Swift / Swiftでイノベーションを起こそう！" is displayed prominently. Below the title, there's a section for "try! Swift Tokyo 2017" with a description of the event, which includes talks from community experts and a Swift hackathon. To the right, there's a sidebar with a message that the hackathon has ended, a button to discover more exciting hackathons, a link to view the winners, and a note about registration status. There are also sections for telling friends and asking questions.

try! Swift Tokyo 2017

try! Swift is an immersive community gathering about Swift Language Best Practices, Application Development in Swift, Server-Side Swift, Open Source Swift, and the Swift Community. It will take place in Tokyo with talks from community experts on March 2nd and 3rd, and a Swift hackathon on March 4th.

try! Swiftは、Swiftのベストプラクティス、Swiftによるアプリ開発、サーバーサイドSwift、オープンソースSwift、そしてSwiftコミュニティに関するトピックが集まった魅力的なコミュニティによるイベントです。

コミュニティのSwiftエキスパートによるトークセッションが3月2日と3日、そしてSwiftハッカソンが3月4日に東京で開催されます。

The Swift hackathon is a community event for try! Swift attendees to work together and apply lessons learned during the conference to push beyond the limits of everyday Swift. Participants can build tools, frameworks, websites, Android Apps, iOS Apps, contribute to open-source Swift, write scripts, anything as long as it's using Swift!

Swiftハッカソンは、try! Swift参加者同士が共に作業し、そしてカンファレンスで学んだ事を実践できるコミュニティイベントです。

参加者は、Swiftを使ったものであれば、ツール・フレームワーク・ウェブサイト・Androidアプリ・iOSアプリ・オープンソースSwiftへの貢献、スクリプトの作成などに取り組むことが出来ます。

This hackathon has ended.

Hey Choi, once more it was a pleasure to meet you and maybe sometime in the future we could've hack the hell out of ton together again. btw checked your profile, you have a very beautiful daughter! 😊

And as I understand you work with a lot of open-source projects, and I work as a freelancer iOS Developer and do open-source contribution, we can work on some cool open-source projects together 😊

Thanks! It was great hackathon with u 😊 Maybe we can make it again next year

Maybe. I came here from Ukraine, it takes 19hrs to flight with one stop, so it's really inconvenient, but I really enjoy Japan and maybe I'll come back next year

- 해커톤 참여 만으로도 돈 값한 경험
- 의식적으로 라도 말을 걸고 참여 한 것은 다행
- 발표의 다양성, Swift 안에서 다양한 시도
- 실리콘 밸리 개발자들과 활발한 소통
- 영어나 일어가 됐다면, 훨씬 좋았겠다

Epilogue

 **majwhite** 7:54 AM ★
Just so you know, it is just as fun to do it at night - @del and I went last night.
